

Pro AV/IT Series High Speed HDMI Cables

Featuring ProGrip®, SureLength® Indicators and Color Identification.

Original Pro AV/IT

Heavy Duty, 26/24 Gauge Construction. 4k Ready For The Most Demanding Commercial Applications

Active

Long Lengths Featuring Redmere® Technology

MicroFlex

Perfect for Racks. Up to 40% Smaller

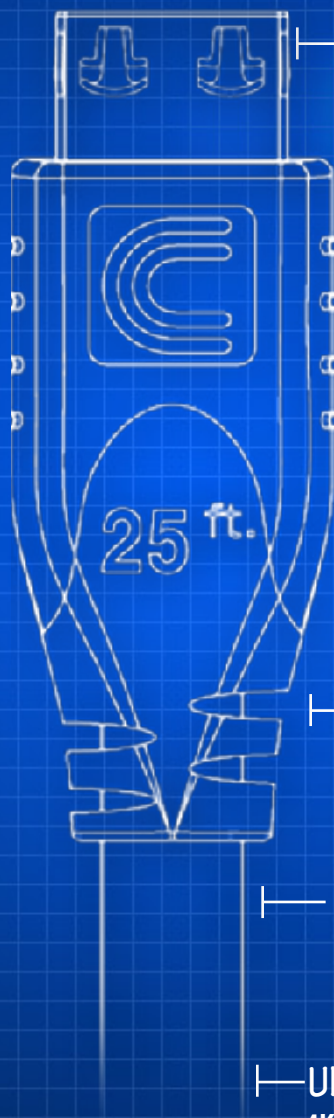

Plenum

Heavy Duty CL2P Plenum Rated

HDMI™

Re-designed for Professional Use.

ProGrip® Connector

Up to 16lbs of retention force helps keep connector in place and prevents unwanted service calls.

Four Versions

Original, MicroFlex, Active & Plenum for all applications.

SureLength® Cable Length Indicators

No more guessing lengths when preparing or installing.

Commercial Grade 24/26 Gauge Construction

99.99% pure copper, triple shielded. Heavy-duty, yet flexible jacket, CL3 rating and Lifetime Warranty.

Choice of Colors

Multiple professional colors for easy cable identification.

Ultra HD Capable

4K x 2K support, up to 32 channels of audio, Ethernet & more.

The World's Only **Pro AV/IT** High Speed HDMI Cables Featuring **ProGrip®**, **SureLength®** Indicators and **Color Identification**

1 **Pro AV/IT High Speed HDMI Cables featuring ProGrip®, SureLength® and Color Identification**

Specifically designed by systems integrators for systems integrators, Pro AV/IT cables set a new standard for commercial digital cables. Exclusive professional features include ProGrip connector heads to ensure a tight fit, Sure Length indicators which make it easy to see the cable length long after the packaging is gone and Color Identification for added flexibility when preparing systems.

All of these features are native to the most capable, durable cable on the market today. Ultra HD 4K x 2k resolution, Ethernet, 32 channels of audio, 21:9 aspect ratio support and more come standard. Constructed of heavy duty 24 or 26 gauge oxygen free copper center conductors, triple pro-grade shielding, and with speeds clocked up to 31 Gbps, no other cable even comes close.

- See page 3-4

2 **Microflex Pro AV/IT High Speed HDMI Cables featuring ProGrip®, SureLength® and Color Identification**

Microflex Pro AV/IT HDMI cables prove once and for all that great things do come in small packages. All the great features of our Pro AV/IT HDMI cables in a small, extra flexible form factor with super micro heads. Perfect for rack building, surface access boxes and any tight space, Microflex HDMI Cables also bring 10.2Gbps speeds up to 15ft. Ultra 4k x 2k resolution support, Ethernet, up to 32 Channels of audio and more.

- See page 5-6

3 **Plenum Pro AV/IT High Speed HDMI Cables featuring ProGrip® and SureLength® Identification**

This heavy duty 24 gauge HDMI cable comes with a Plenum rated CL2P jacket and is the only Plenum HDMI cable on the market to offer Comprehensive's exclusive ProGrip technology and convenient SureLength markers.

- See page 9

4 **Active Pro AV/IT HDMI High Speed Cables with Redmere, ProGrip® and SureLength® Identification**

Comprehensive Pro AV/IT Series Active HDMI cables are the industries only true commercial grade active HDMI cables with professional features not found anywhere else. Comprehensive's Pro AV/IT Active HDMI cables are designed specifically for systems integrators and utilize the latest Redmere chip technology to deliver full high speed 10.2 Gbps over long distances up to 50 feet.

- See page 10

Pro AV/IT Series High Speed HDMI Cables

Comprehensive Pro AV/IT Series HDMI cables are the **ONLY** HDMI cables specifically designed for **Systems Integrators, corporate, government, medical and other demanding business environments**. With exclusive Professional features including **ProGrip®** connector technology, **SureLength®** indicators, and 7 colors for easy identification, our HDMI cables are **backed by the best durability and reliability in the business**.

Comprehensive Pro AV/IT HDMI cables feature all the latest HDMI features including **Ultra HD 4K x 2K Resolution**, Up to 48 Bit Deep Color, Ethernet, up to 32 audio channels and wide angle theatrical 21:9 aspect ratio as well as true commercial grade construction with professional features not found anywhere else.

Comprehensive's exclusive **ProGrip® connector** helps secure the connection with up to 16lbs of retention force to prevent cables from being unintentionally disconnected. Other exclusive features include **SureLength® cable length indicators that clearly indicate the length of each cable** on the connector mold, and **multiple color availability for easy cable identification**. Length markers and an assortment of colors are huge time savers for installers who are constantly sorting out lengths preparing for jobs and rack building.

Comprehensive Pro AV/IT cables are constructed using a true professional grade 99.9% High Purity copper 24 or 26 AWG center conductor that is **significantly more durable than traditional HDMI cables**. Triple professional grade shielding with 2x 100% coverage and an additional premium 85% Tinned Copper braid provide superior rejection of EM and RF interference. Comprehensive's extra flexible jacket with UL/CL3 ratings makes this cable perfect for any commercial or residential installation. Molded strain relief provides unsurpassed durability. **Lifetime Warranty**.

Since 1974, Comprehensive Pro AV/IT Series Cables have been trusted by Pro AV and IT systems integrators because of their legendary reliability, performance and value. That's why they have been the "go to" cable worldwide for boardrooms, classrooms, data centers, schools, government installations, stadiums, broadcast studios, stages and other mission critical applications. Pro AV/IT Series Cables are also perfect for anyone looking for professional quality connectivity at a great price.

MicroFlex Pro AV/IT Series High Speed HDMI Cables

Comprehensive's MicroFlex Pro AV/IT HDMI cables were designed specifically for the tight spaces encountered by systems integrators and I.T. professionals with professional features not found anywhere else. Microflex Pro AV/IT HDMI cables feature a low profile design and un-heard of flexibility that make them perfect for use in surface access boxes, equipment racks and other tight spaces including behind flat panels where space is limited.

Comprehensive's exclusive ProGrip connector utilizes up to 16lbs of retention force to ensure a tight connection at all times and help prevent cables from being unintentionally disconnected.

SureLength indicators clearly indicate the length of the cable right on the connector head for quick and easy length identification in the field. Microflex HDMI cables are also available in multiple professional colors for easy cable identification. These features are huge time savers for installers who are constantly sorting out lengths preparing for jobs and rack building.

All of these features are included in a cable with a connector head and O.D. that is up to 40% smaller than traditional HDMI cables while providing state of the art capability including HDMI 2.0, Ethernet, Deep Color, Dolby True HD and DTS-HD Master audio, audio return channel, and support for 4K x 2K resolution.

Triple professional grade shielding including 85% tinned copper braiding provide superior rejection of EM and RF interference. Comprehensive's extra flexible jacket makes this cable perfect for any commercial or residential installation. A molded strain relief and ultra-flexible jacket provide unsurpassed durability. As always, Comprehensive's famous Lifetime Warranty comes standard.

State of the Art Performance and Reliability

Comprehensive ProAV/IT HDMI Cables provide Full Ultra HD performance. Features include up to 4096 x 2160 resolution/48 bit deep color, Ethernet, up to 32 channels of audio, Dolby TrueHD 5.1/7.1 Surround Sound and much more.

Pro AV/IT HDMI Cables are simply the most capable HDMI cable in the market bar none. All of this performance is also delivered in the most innovative and reliable cable in the market bar none, with exclusive features and tested and trusted durability for commercial environments you can count on every time.

HDMI Re-Invented for Professional Use

HDMI is an amazing technology, but it was obvious early on that the inherent design of HDMI cables were lacking in core features needed for systems integration, SMB, government, education and other demanding B2B applications. So Comprehensive set out to re-invent the HDMI cable for professional use. We re-designed the HDMI cable from the ground up specifically with the needs of **Pro AV/IT systems integrators and B2B customers in mind**. The result is a state-of-the-art cable that excels both in premium performance and unquestioned reliability.

Multiple Colors for

Keeping track of all of your cables is a time consuming overhead to jobs. Now you can use the same **ea** from Cat5/6 with your Comprehensive HDMI ca

AV/IT HDMI Cables

Speed HDMI Cables with
Markers and **Color Identification**.

ProGrip® HDMI Connector Technology

The number one complaint about HDMI Cables has been it's inability to stay connected. So, Comprehensive developed our exclusive ProGrip® HDMI connector which features up to **16lbs of retention force**. Without actually locking, the ProGrip® connector fits very snugly **so the cable stays connected and prevents unwanted customer service calls** from your clients.

Easy Cable Identification

Eliminating a tedious chore that slows you down and adds labor to your workflow, our **easy color identification system** you are used to in other industries.

SureLength® Indicators Remove The Guesswork

Preparing cables and keeping track of cable lengths for jobs, your next presentation or rack build can be a frustrating and time consuming experience, especially when the packaging is long gone. Now you can tell the difference between the 25 and 35 footers for example **with just a glance at the connector head**.

Plenum Pro AV/IT HDMI Cable with ProGrip® & SureLength®

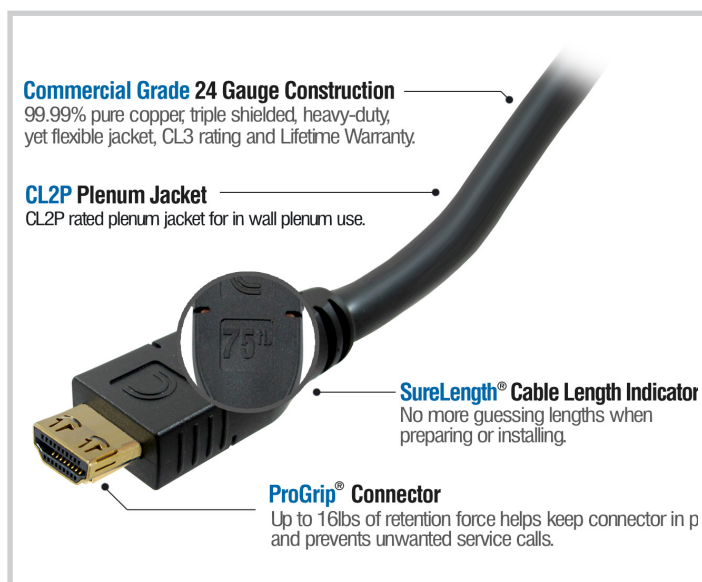

Comprehensive Pro AV/IT Series Plenum HDMI cables allow HDMI cables to be run without conduit saving money and time. Our Plenum HDMI cables are designed with a large 24 gauge oxygen free copper center conductor to ensure excellent signal transfer for high definition HDTV cable performance over longer distances than traditional cables. Triple shielding provides maximum rejection of all EM and RF interference and 24k gold connectors ensure superior connectivity.

Features include up to 10.2 Gbps Hi Speed, 8 Bit Deep Color, 120 Hz Refresh Rate, Lip Sync, 3D and Ethernet Capable and more. A CL2P plenum rating makes this the perfect cable for both commercial and residential installations. Comprehensive's exclusive ProGrip connector tightly secures the connection with up to 16lbs of retention force to prevent cables from being unintentionally disconnected. Other exclusive features are Comprehensive SureLength cable length indicators that clearly indicate the length of each cable on the connector mold for easy cable identification. Length markers are huge time savers for installers who are constantly sorting out lengths preparing for jobs and rack building.

Our Lifetime Warranty means a lifetime of worry-free HDTV performance.

Features

- **ProGrip connector** utilizes up to 16lbs of retention force to help keep connector in place
