Comprehensive Introduces the CSW-HDBT300M - Multi-Input Switcher/Scaler to HDMI with HDBaseT Up to 330ft – Transmitter and Receiver with IP Control

Delivers 4K Resolution over a Single Cat6/7 Cable Up to 330ft from 8 Display Input Sources

Fairfield, NJ (August 23, 2016) – [Comprehensive Connectivity Company](http://www.comprehensiveco.com), the **tested and trusted** connectivity solutions provider to the Pro AV/IT markets for more than 40 years, unveils the high performance Multi-Input Switcher to HDMI with HDBaseT that extends signals for distances up to 330ft over a Cat6/7 cable ([CSW-HDBT300M](http://www.comprehensiveco.com/CSW-HDBT300M)).

Comprehensive's CSW-HDBT300M accepts up to 8 various input sources: one DVI, two VGA, one composite video and four HDMI signals.

The Multi-Input Switcher/Scaler to HDMI with HDBaseT takes current or legacy input sources and scales their resolution up to 4Kx2K@30Hz.

Comprehensive's Multi-Input Switcher with built-in transmitter provides users the ability to customize their own display matrix that combines native DVI, VGA and HDMI input resolutions up to 4Kx2K@30Hz and HDBaseT output that transmits signals over a Cat6/7 cable. The Multi-Input Switcher can supply a direct output signal or via included HDBaseT Receiver to extend and receive signals up to 330ft – a much longer distance than standard switcher products.

The Switcher unit provides maximum display source management without the need for bulky cables and additional equipment.

Comprehensive's Multi-Input Switcher provides control flexibility with smart EDID management for recognizing multiple display formats and sources with each source routed to any display using the easy-to-read front panel push buttons, IR remote control, RS 232 interface or even TCP/IP control that lets the user manage the unit from a web browser. In addition, the Switcher unit is HDCP compliant for pass-through content for devices such as gaming consoles, cable boxes and more.

Comprehensive[®]
Connectivity Company

Comprehensive's Multi-Input Switcher Kit is the perfect solution for home theater system, commercial spaces, presentations, control rooms, retail and security and anywhere in between that requires multiple format distribution to multiple high definition display screens.

Features

- Scales and transmits distances up to 330 feet through CAT6/7 cable
- Compliant HDMI 1.4 and HDCP 1.3
- Supports resolutions up to 4Kx2K@30Hz
- Supports input resolutions from 2x HDMI, 1x DVI, 2x VGA, 1x CV
- Supports PoE function
- Supports embedded audio
- Supports S/PDIF and stereo audio outputs
- Supports smart EDID management
- Supports RS-232, remote control, on-panel control and TCP/IP Control
- 2 Year Warranty
