South Hackensack, New Jersey:

Finally Charge Your iPad Direct From Your Computer With New USB Charger

Since 1974, Comprehensive Cable has offered unique solutions to the Pro A/V industry but their latest may appeal to many others as well, namely anyone who owns an iPad and a current PC or an older Mac using USB. Since standard USB ports cannot provide enough power, many iPad owners have been forced to rely on a wall charger to charge them. However the new [USB Charger](#) for iPad from Comprehensive Cable allows you to charge your iPad , iPad2 and new iPad (3rd generation) with the USB port on your computer. Simply plug your device into the USB Charger and then plug the USB Charger directly into your computer's USB port. It's as simple as that!

Allow the device to charge for an average of 6-8 hours for a complete charge. Charging will then continue even after your iPad goes into sleep mode from active mode during charging. (Please make sure your iPad is not in power off mode or sleep mode when you first connect it to the charger or your device will "wake up" but not charge.)

Features Include:

- Ability to charge your iPad,iPad2 or 3rd generation iPad from a Window PC, Laptop or older MAC (pre-2007) with USB 500 milliamps@ 5volts power
- Simple plug and play functionality
- Stylish white construction to match your Apple devices and accessories
- Lightweight and portable
- Only weights .26 ounces and is 1.75" x .70"x .35"

For more information, please [click here](#) and also see high res image attached above.

For product information on the USB Charging Adapter or any other Comprehensive products, please visit us at www.comprehensivecable.com, call toll free at 800-526-0242 or e-mail sales@comprehensivecable.com.

*The iPad, iPad2, MAC and related names are the property of Apple, Inc. This product is not licensed or endorsed by Apple Inc. Charging times may vary. Comprehensive is not liable for any damage to software or hardware using this device.

About Comprehensive

For nearly 40 years, Comprehensive has been the Pro A/V industry standard for connectivity performance, reliability and value. That's why millions of Comprehensive cables and connectivity products are in use at stadiums, broadcast and recording studios, stages, boardrooms, classrooms, government installations and now living rooms around the world. Comprehensive Cable and Connectivity Company is a division of New Jersey based VCOM International Multimedia Corporation.
