South Hackensack, New Jersey:

Comprehensive Introduces CSW-VGA440A 4x4 VGA High Resolution Matrix Switcher with Stereo Audio

The CSW-VGA440A routes high resolution VGA video and stereo audio from any of four VGA and audio sources to any of four VGA displays and audio receivers. Four outputs give you the choices of sending audio and video signals up to four displays in any combinations. Resolution up to 1920x1200 and 1080p make this the perfect switcher for any VGA application.

Any four to any four true matrix switching allows for maximum versatility for integrated systems. It eliminates the need to disconnect and reconnect sources to a display equipped with one input. It works with a wide variety of VGA sources such as computers, security cameras and DVRs. Every source is accessible at all times with any display by selecting it with an IR remote, front panel buttons or through RS232 port. The CSW-VGA440A comes with our 2 year warranty.

Features:

- 4x4 Matrix Switching with Stereo Audio
- High Resolution of up to 1920x1200
- Bandwidth up to 500MHz
- Front panel, IR or RS-232 Control
- Rugged metal enclosure
- Warranty: 2 Years
