

Comprehensive Announces Exciting New Platemasters CAD

Comprehensive is proud to offer Platemasters CAD (Computer Aided Design, which is the use of computer technology for the design of real or virtual objects).

This tool was built expressly with the designer, architect and engineer in mind. Compatible with all versions of CAD, from 2005 to AutoCAD 2011, the Platemasters CAD tool offers the ability to add wall plates, rack panels and nema panels to the overall design of any project you may be working on. There are thousands of combinations that allow for the construction of almost any computer or A/V plate imaginable. With plate panels and connectors already pre-designed, the user customizes the remainder of the design, making Platemasters CAD a huge time saver!

All it takes is the simple download of the Platemasters CAD plug-in, FREE, 24 hours a day from the Comprehensive website! <http://www.comprehensivecable.com/content/Platemasters-CAD>

Features:

- Saves time and money.
- **FREE** CAD Plug-in allows you to design custom plates and panels on the go, at the jobsite, or anywhere.
- No more back and forth on custom quotes and drawings to approve.
- Simple drag- and-drop functionality.
- Custom text and logos can be added in quickly and easily.
- Custom plates and panels ship in as little as 48 hours.
- No minimum order.

About Comprehensive

Known as the industry standard for premium cable performance and reliability, Comprehensive has been the leader in professional video, audio and computer connectivity products for over 35 years and is a division of New Jersey based Vcom International Multimedia Corporation.
