Comprehensive Connectivity Introduces New Pro AV/IT CAT6 Heavy Duty Snagless Cables.

Fairfield, NJ (March 9, 2015) – Comprehensive Connectivity Company, the **tested and trusted** connectivity solutions provider to the Pro AV/IT markets for more than 40 years, introduced their latest innovative connectivity innovation.

What Comprehensive did for HDMI they have now done for networking. Following up on the huge success of Pro AV/IT HDMI cables, Comprehensive introduces Pro AV/IT CAT6 Heavy Duty Snagless Patch Cables. Available in three different configurations including RJ45 and Ethercon connectors, [CAT6xxPRO, CAT6xxPRO-E, CAT6xxPRO-ER]. Pro AV/IT Cat 6 cables are the perfect networking solution for commercial AV and IT applications that ranges across SMB, Government, Military, Rental and Staging and more. These Comprehensive heavy duty Pro AV/IT Cat6 cables are designed specifically for data environments that require a rugged, durable cable - built to last.

Each Pro AV/IT CAT6 professional grade cable has been assembled with Comprehensive's Accu-Twist design, a stranded twisted pair construction that ensures voice, audio, video and data transmissions while reducing signal loss and providing cable flexibility. A molded, snagless boot provides effective strain relief that is perfect for installations. All of the Pro AV/IT cables are wrapped in a heavy-duty, PVC jacket which lends itself to superior external protection.

Like their Pro AV/IT HDMI cousins, Comprehensive's Pro AV/IT CAT6 Heavy Duty Patch Cables include length indicators that clearly indicate the length on each connector head to make staging jobs fast and easy. In addition, these innovative cables are available with any of seven (7) color-coded boots for quick and easy cable identification in the field.

All Cables are RoHS Compliant with Comprehensive's Lifetime Warranty.
